

# MONYA TRANSACTION (PAYMENT) GUIDE

Ver.1.2

- This guide is a manual for the operation of multi-cryptocurrency wallet MONYA.
- Screens and operations may depend on the specification of device.
- Each setting for details or application is to be performed by each user.
- This guide may be modified without a notification beforehand.
- Owning and using cryptocurrency / virtual currency and associated applications is on one's own responsibility (The guide author and the developer of each system or app take no responsibility or liability).

# TRANSACTION / PAYMENT WITH QR CODE

Recommended

Not including amount invoice in QR code

Including amount invoice in QR code

We suggest you use the wallets below, which enable you to confirm the transaction / payment soon.

MONYA

MonaWallet

Your customer reads out a QR code such as the following and pays the charged amount in MONA.

Refer to the [transaction/payment page](#).

Print out a QR code created by either of the wallets above and post it on the wall or menu list, or your customer reads the QR code. They are enough to do.

The following three charging methods are available in MONYA.

## <SHOW ONLY YOUR ADDRESS>

QR code has only your receiving address information.

**Your customer will input the charged amount to pay.**

Simple

## <CHARGE TOTAL AMOUT>

QR code has the charged amount and your receiving address information.

**You (Shop) will input the charged amount.**

Your customer does not have to make an input.

Recommended

## <ITEM REGISTRATION & CHARGE>

Registration of your items creates a list of the payment for each item.

Your customer has only to select each item, which is similar to an internet shop.

QR code has the information on the charged amount and your receiving address.

Your customer does not have to make an input.

**Registration of the item information beforehand is required.**

# TRANSACTION / PAYMENT BY MONYA <SHOW ONLY YOUR ADDRESS>

※Screens are of Android App version.

1. Start MONYA and tap "Receive".

Tap the MONA mark to check it with a ✓ mark.

2. Your customer reads out the QR code, inputs the charged amount, and makes a payment.

3. Go back to the Home screen. The payment starts when red characters below are displayed. The payment is completed when those characters turn black.

# TRANSACTION / PAYMENT BY MONYA <CHARGE TOTAL AMOUNT> 1/2

※Screens are of Android App version.

1. Start MONYA and tap "Receive".
